CND[™] 
Hands. Feet. Beauty.

NOTHING ELSE CAN TOUCH IT.

The **original** “power polish,” CND Shellac combines the ease of polish with incomparable high-gloss shine and extended-wear.

- Voted *Nails Magazine's* **Best New Product of 2010**, in addition to awards from:

- No nail damage, because there's no filing required
- Easy on *and* easy off in just 10 minutes with safe, gentle Shellac™ Remover Wraps
- Patent-pending UV³ technology locks in the luster—for a fresh-from-the-salon look that lasts 14 days
- Faster service time for greater income potential

CND SHELLAC™ The beauty of hard science.

*Based on nail professional feedback. We won't name names, but "gel polish" brands don't deliver the results of Shellac!

REVOLUTIONARY FROM START TO MIRROR FINISH.

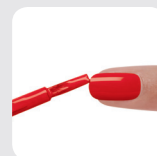

Easy On

Use the complete Shellac 3-part system for strong, protected nails. Manicure and prep nails before starting.

STEP 1

Shellac UV Base Coat
One thin layer, 10 seconds to cure.
Do NOT roughen nail with file.

STEP 2

Shellac UV Color Coat
Two coats. Cure* for 2 minutes each.
Don't forget to seal the edge.

STEP 3

Shellac UV Top Coat
Seal in the lasting wet look with one thin layer. Cure for 2 minutes and wipe each nail with 99% isopropyl alcohol.

Voilà! Shellac nails will stay perfect long after other color options have faded or chipped away.

Easy Off

Wash hands before beginning the easy removal process.

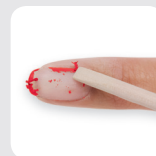

STEP 1

Wrap fingers with pure acetone saturated Shellac™ Remover Wraps.

STEP 2

Wait just 10 minutes.

STEP 3

Massage wrap and pull free from finger. Slide any remaining color off with an orangewood stick. Apply SolarOil™ for conditioning.

Shellac removes in 10 minutes with NO filing or nail damage.

*Use the CND UV Lamp (or Brisa™ Lamp) for best results.
